

Cooleman Hill and Mount Arawang Circuit

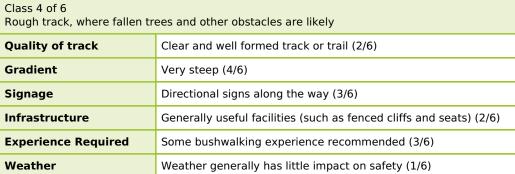

Starting from Monkman Street, Chapman, this circuit walk takes you into the grasslands of Cooleman Ridge Nature Reserve, visiting Cooleman Hill and Mount Arawang along the way. Start the hike with a climb up the hill to get your heart pumping. As you're enjoying the panoramic views over the reserve, look out for birds such as the Diamond Firetrail and the Flame Robin. Get on the hammock atop of the hill for an extra comfortable birdwatching session. Other animals residing in the area include the Eastern bearded dragon and the endangered Pink-tailed worm-lizard. When you make it to the summit of Mount Arawang, expect a 360 degree clear view of everything around you, with a good balance of urban and natural scenery. Specifically, the aesthetic view of the distant mountains covered with dense forests is well worth the effort. Keep in mind that horse riding is allowed on marked equestrian trails. Let us begin by acknowledging the Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.
