Hard track

Starting from Temple Gorge Campground, Kennedy Ranges National Park, this walk takes you to the Escarpment Lookout and back. You can enjoy the open views from the escarpment and see how minute the car park and the campground actually are. The path follows a rocky creek bed in the first half, and interesting geological formations are around to observe, along with sandalwood (*Santalum spicatum*). The second half is steeper and requires cliff edges and loose rocks to navigate in between. You might want to take your hiking shoes and plenty of water with you. Keep in mind the walk can take a long time, and start the journey a little earlier as it can get extremely hard to navigate on the way back. Let us begin by acknowledging the Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.
