Moderate track

Starting from Sundial Car Park, Bellfield, this walk takes you on a circuit around the area, visiting Lakeview Lookout. You can have the best of both worlds with layers of amazing sandstones that seem impossible through the walk and with the amazing scenery of Mount William Range and Lake Bellfield. The trail is relatively short, but slippery rock formations can be sharp, so you might want to have grippy running shoes or hiking shoes. Additionally, wildflower observation is possible during spring for the enthusiasts. The texture also differs in certain sections, from sand to hard rock formations. You can also bring extra water during the hot season. Let us begin by acknowledging the Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.
